APPENDIX IV: TAXONOMY CODES

of the Professional Provider Office Manual

This is an appendix of the Blue Cross and Blue Shield of Louisiana (Louisiana Blue) *Professional Provider Office Manual*, and is for informational purposes only. For complete *Professional Provider Office Manual* information, please refer to the other sections of this manual. Contact information for all manual sections is available in the Manual Reference Section.

For member eligibility, benefits or claims status information, we encourage you to use iLinkBlue (www.lablue.com/ilinkblue), our online self-service provider tool. Additional provider resources are available on our Provider page at www.lablue.com/providers.

This manual is provided for informational purposes only and is an extension of your Professional Provider Agreement. You should always directly verify member benefits prior to performing services. Every effort has been made to print accurate, current information. Errors or omissions, if any, are inadvertent. The Member Contract/Certificate contains information on benefits, limitations and exclusions, and managed care benefit requirements. It also may limit the number of days, visits or dollar amounts to be reimbursed.

As stated in your agreement: This manual is intended to set forth in detail our policies. Louisiana Blue retains the right to add to, delete from and otherwise modify the *Professional Provider Office Manual* as needed. This manual and other information and materials provided are proprietary and confidential and may constitute trade secrets.

Taxonomy Codes

The following table lists the taxonomy codes currently configured for submission to Louisiana Blue. To help ensure timely and efficient claims processing, providers should select a valid taxonomy code from this list whenever a taxonomy code is submitted on a claim. New taxonomy codes are generally added only when a new provider general type is introduced.

Louisiana Blue requires taxonomy codes on claims for emergency room or urgent care providers or when a taxonomy code is needed to identify a single provider record during claim processing. If a provider receives a taxonomy code-related edit, the claim must be resubmitted with the appropriate taxonomy code from this list. This assists Louisiana Blue in accurately identifying and locating the correct provider record.
