

Claims-editing Software (CES) System for Professional Claims

What is claims editing?

It is editing applied to incoming claims to ensure proper coding and billing based on reimbursement, medical policy, benefits rules and industry standard coding guidelines.

CES Tool in iLinkBlue

Providers can calculate claim-edit outcomes with our CES tool available online at www.lablue.com/ilinkblue >Claims >Medical Code Editing. Mandatory fields are circled below.

Line	Beg DOS	End DOS	Procedure	Modifier	Units
1	10/25/2024	10/25/2024	99202		1
2	10/25/2024	10/25/2024	90050		1
3	10/25/2024	10/25/2024	38415		1

The results of the software do not consider all circumstances and factors that may affect payment including:

- Historical claims previously billed
- Units billed
- Global day edits for procedures
- Multiple procedure reduction
- Member benefits and eligibility
- Provider contracts
- Modifiers that override edits

Claims-editing Software (CES) System for Facility Claims

What is claims editing?

It is editing applied to incoming claims to ensure proper coding and billing based on reimbursement, medical policy, benefits rules and industry standard coding guidelines.

CES Tool in iLinkBlue

Providers can calculate claim edit-outcomes with our CES tool available online at www.lablue.com/ilinkblue >Claims >Medical Code Editing.

This tool is applicable for hospital outpatient and ambulatory surgery center edits only. Mandatory fields are circled below.

LOUISIANA BLUE

This tool is applicable for Professional edits or Facility Outpatient edits. Please do not use this tool for Inpatient edits.
